

THE

Secret Patient's DIARY:

ALSO THE

1174. b. 11.

GOUT and Weakness DIARIES.

BEING EACH A

PRACTICAL Journal or SCHEME

from Day to Day, of these Disorders, whilst
a Person has the *Secret Disease*, or the GOUT,
or *Rheumatism*, or a GLEET upon them.

Also, Of A Broken Constitution, the Heart-
Burn, Agues, the ITCH, and Use of TOBACCO.

His Book is GIVEN GRATIS, Up One Pair of Stairs
at the Sign of that Celebrated ANODYNE

NECKLACE

Which Dr. Chamberlen has so much Recommended for
Children's Teeth, (Price 5s. with Directions) next the Rose
Tavern at Temple-Bar.—Of which NECKLACE see pag. 22.

at Mr. Jeremiah Pain's, the Sign of the Bunch of Grapes,
the First Toy-Shop on the Right-hand just within Popes-
Head-Alley from Cornhill, right against the Royal Exchange.

at Mr. Parker's, Printer, in Bull-Head-Court, in Jewin-Street.

at Mr. Gray's, Cutler, just below Hungerford Market in the Strand.

and by R. Bradshaw, (the Author's Servant) at his House,
just by Soho-Square, as at Large over Leaf in the next Page.

L O N D O N: Printed by H. Parker, in Jewin-Street, 1725.

For the saving of Trouble, and for Greater Privacy, Every Reader is desired to take Notice.

THAT Persons who may live some Distance from London, may the more Easily and Privately come by any of the Remedies, or Books mentioned in this Treatise

A *Servant* is employed on Purpose to Carry any of these Books or Remedies *Privately* to whoever writes for them,

If they send but the least Note by the *Peny Post Directed Thus*

To Mr. Robert Bradshaw, next to the Kings-Head in Crown Street, against Sutton-Street End, by Soho Square, London.

So that as soon as ever this Note is received :

This Person will presently bring **PRIVATELY** to you Or leave at any House *Privately* for you, as you shall order him, whatever of these Things you shall write to him for

His *Business* being expressely to **CARRY** any of them (*Carriage Free*) to whoever Writes to him for them.—Also

Upon the Receipt of any Letter directed thus to him by the General Post from any more Distant Part, as from any remote County of England, Wales, Scotland, Ireland, or elsewhere.

He will deliver to any Carrier, or Stage-Coachman :

Or to any Master of a Ship, Sloop, Hoy, or other Vessel

Or to any other Person, whatever you write to him for, **PRIVATELY** Put up, that no Person can know what it is

So that by thus Writing by the **POST**, any one in the Country or elsewhere **FAR FROM LONDON**, may with all Ease, Expedition, & Privacy come by any of these Things

And so Cure themselves in any private Family in the Country, without making your Case known or suspected to any one in the City, Town, or Family where you live

THE Reason for this Notice of Writing by the Post is, Because Many Persons in the Out-Parts of London, or some Miles off in Middlesex, Kent, Essex, or Surrey, have not the

Convenience of Sending for, or Fetching themselves any of the Things in this Book : Therefore, Since sending a Note by the Penny Post is so very Easy and Ready at Hand to every Body

This Person is appointed on Purpose to carry *Privately* to any one (*Carriage Free*) Any of these Things they write to him for.—Also

WHEREAS a particular New **SHORT-HAND**, (which As much may be almost Instantly WRITTEN as otherwise wou'd take up a great many Laborious

Hours Writing) has of late been much in Vogue, and **TAUGHT** at several Guineas Price:—This **SHORT-HAND**

is now Finely Printed for a Speedy Dispatch of Learning and Business, and is **GIVEN GRATIS**, as is also the late Useful Treatise on the **PLAGUE**, to Any Customer that has a Mind

for them either at the *Anodyne NECKLACE* at Temple-Bar Or that writes to R. Bradshaw the Author's Servant.

The Secret Patient's Journal.

AFTER a Person has unhappily contracted a Venereal Infection, the Venomous Matter received being of a violent sharp corrosive Nature, lies for the First THREE Days Fretting and Fermenting within the Pores and Islands of the Part that has received it:—And thereby

On the FOURTH Day, it causes an unusual Kind of Itching, and as it were a Heat, and Throbbing of the Part: And This is the FIRST Symptom that every Patient feels.

Fifth Day.

The FIFTH Day, the Person finds this Itching, Heat and Throbbing of the Part to increase, and to be accompanied with little Twitchings, Tinglings, Darrings and Shootings with a little Inflammation about the Orifice, or Entrance of the Passage. Where there appears a Drop or 2 of foul Matter, & the Part begins to look Hot and Angry, & is Tenderer than usual.

Sixth Day.

On the SIXTH Day, the Dripping appears More in Quantity; and the Throbbing and Uneasiness of the Part-increases.

Seventh Day.

The SEVENTH Day, there appears a particular Redness like a large Pimple, Flea-Bite, or Measle on the Part, which grows also now redder, and is hot, Sore, and swell'd, and the Urine begins to give a Twitch or 2 in making it.

Eighth Day.

On or about the EIGHTH Day, the Matter comes away Discoloured. And after that, it degenerates into a greenish Colour, & is sometimes a little Bloody, Where Note.

That the Yellower and Greener, & the Thinner the Matter is that comes away, are Marks of a Worse Infection. Whereas The Thicker and Whiter the Dripping is, and the sooner the Distemper shews it self, 'tis always the better for the Patient.

Ninth Day.

The NINTH Day, the making of Water is now Smarting and Hot, and the Part is Sore, Swell'd, and Angry.

And by this time the little red Spot or Pimple that appeared Two Days ago on the Part now grows sore, and emits a little owzing Matter, which drying on it, becomes a crusty scab, and lays the Foundation of a future SHANCRE.

The Dripping now also increases, & as That increases, the smarting Pain in making of Urine increases also along with it: And which Dripping Matter drying on the Orifice of the Passage, obstructs the Urine, & divides it into a double Stream. And thus the Distemper acts in it's Beginning, in whilst it is in its FIRST Degree.

THis First Progress of the Distemper being thus considered, before we proceed any farther in this *Diary*. We'll examine which is the best and Easiest Method to Cure the *Distemper* now Thus Far contracted, before it gets Farther.

In order to which, we cannot do better, than to imitate the common rational Practice of *Physicians*, which is this, that

If any one particular Limb or Part of the Body is injured, Hurt, or wounded, some proper *Remedy* is immediately used to That Limb or Part that is injured, without Physicking the Stomach that is not at all concerned in the Matter :

Whereas on the other Hand, if the Stomach is Sick, & out of order, proper Physick is conveyed Into it, to rectify it :—But

To fill a Persons Stomach with Physick for any Hurt done to any particular Limb or Part of the Body, (as a Broken Skin, &c.) is what no *Considering Physician* ever puts in Practice.

Again : Suppose a Person bitten by a Viper, or a Mad Dog, What wou'd be the first thing to be undertaken ?

It wou'd most certainly be the taking away of the poisonous Matter from THAT Place of the Body which is Hurt by the easiest and quickest Method, which cannot be imagined to be by that of any *Purging Course* of Physick.

But on the contrary, some proper *Remedy* is presently used to the wounded Part it self to Cure it.—Or again :

Suppose *Aqua Fortis*, Oil of Vitriol, Spirit of Nitre, or any other burning and scalding Liquor, should fall upon, or happen to touch any Part of the Body, proper Means used to the Hurt Part it self, wou'd be the only Way to Cure it.

And shall these Reasonable Methods of Cure be denied in our present Case, which runs entirely Parallel with the acting of any other poisonous, or venomous Matter whatsoever.

Since therefore the Distemper AS YET in this it's FIRST Stage, affects only that One single Part of the Body that first took the *Infection*, without any Disorder in the Stomach that requires the Person to take any Physick: By Consequence

There is no manner of Need of taking any Physick into the Stomach, which as yet has nothing at all to do in the Matter.

But Persons may much sooner, and easier Cure themselves without taking any thing at the Mouth, with a particular *Cleansing* and *Healing Chymical LOTION* to WASH and Cleanse the *Venerreal Infection* and *Venom* out of the Part with

And thereby answers the Intention of Physick taken in at the Mouth, which is to PURGE, Cleanse and free the Part from the *Infection*.——Where Note, That

The Word LOTION signifies a proper Medicinal Liquor to WASH, Cleanse, and Draw any *Infection*, *Venom*, *Corruption* or *Foulness* out of any wounded, sore, or Infected place.

That a

(5)
This being therefore so, Who is there that likes to be
Nauseated with taking of *Physick*, when the *Best* that can be
expected from thence, is no more, than what may be much
sooner procured upon far easier Terms by this Easy Remedy?

It has indeed been a long unhappy Custom to put Per-
sons for the Cure of only slight Venereal Injuries into har-
rassing Courses of *Physick*, under the Notion of Carrying
off the Infection. And tis also true, that to perform a Cure,
the Infection and Venom that has been received, **MUST**
be Taken away; But Why so much *Physick* for it?

If this can be done by easier Means, 'tis entirely un-
necessary that Persons should take so much *Physick* as usual-
ly they are put upon, to get rid of what every Person may
much easier Cure themselves of by this One single little
Easy Remedy, without any Thing taken at the Mouth.

And to be used with the greatest Ease, & secrecy, Thus.
The Patient is privately in their Chamber to pour out in-
to a Tea, or Coffee cup, a Spoonful or two of this *Lotion*.
And then to Hold the Part in it, and to let it LIE and
SOAK some little Time in it, and to Wash and cleanse it
with it, according to the Directions which are along with it.
This is not only comfortable to the Patient, but makes a
Riddance of the Disease, and its Symptoms at Once.

Because A Tea-Cup full of this *Lotion-Liquor* thus Used,
soaks, Draws, WASHES, Cleanses and PURGES out,
without taking any Thing at the Mouth) Directly and Immediately
the Venereal Venom and Infection from the Part, and thereby
hinders it from ever getting into the Blood, or penetra-
ting farther into the Body: Infomuch, that

Upon only Thus using this *Lotion*, Persons will find such a
comfortable Change and Alteration in themselves, as to be
FIRST rendered surprisngly easy, altho' (to use the Expression of
Patients about their Smarting of Urine) they seem'd to
void Pins and Needles before, the Part was so very sore:
It making the Person (who before was Dejected, Spiritless,
and cast Down) surprisngly Easy, Chearful, and well, as if no
such Misfortune had been: And this without Confinement, or
hindrance from any Business, or Travelling, or the Knowledge
even a Bedfellow, 'tis so Secret and Easy a Cure. Because
Washing the Part with this *Lotion*, being with the utmost
privacy, and SOON DONE, can never betray a Person
in to a Bedfellow, if they will but be True to themselves.

Whereas other Methods keep them Long in Hand, Nause-
tes the Stomach, and betrays the Person into the Bargain.

For by this Method, the Part it self which as yet has been
the only Sufferer, Receiver, Sharer, and Retainer of the In-
fection, is freed from it, without harrassing the Stomach,
that as yet has Nothing at all to do in the Matter. And

And that this is no Method of Cure of One Man only, but recommended and Used by the Greatest Physicians, the Writings of Dr. Quincy, Dr. Drake, Dr. Cooper, & others fully shew.

But there is one Eminent Author that is equal to all, and that is Dr. Cockburn of St. James's-Street, London, who has published a Useful Treatise expressly in Defence of this Method of Cure without taking of Physick, and which is well worth every Venereal Patient's Reading, Entituled,

The Symptoms, Nature, Cause & Cure of A GONORRHOEA. By W. Cockburn, M. D. Fellow of the Royal Society, & of the College of Physicians. Printed for G. Strahan, at the Golden Ball against the Royal Exchange in Cornhill, 1718.

In which Treatise having clearly shew'd, that The Fashion of giving so much Physick for Venereal Injuries, & Gleets is entirely WRONG, & that these Disorders may be much Better Cured without any thing taken at the Mouth, He concludes :

" If ever therefore Practitioners reason against the Cure of a
" Gleet and a Gonorrhoea this Way, 'tis for other Ends on their
" Patients than to consult their Healths, these Disorders being
" Sooner & Better Cured without taking any Thing at the Mouth,
" than any other Way, and the greatest Heat of Urine is taken off
" This Way in a few Hours, which often resists the best Medicines.

" The Safety also of This Way is greater than can be by
" any Thing Taken at the Mouth : And therefore, as there is no
" Competition lies between the Success of this Method and others,
" our Endeavours ought ALL to be employed about it ; A Gonorrhea being Thus Cured in the shortest Time, without any Pain,
" and with the greatest Certainty. — Thus Dr. Cockburn.

And again By only WASHING the Wheals, Blisters, Frettings, Rawnesses, Ulcers, or other Venereal Sorenesses on the Part with this Lotion, it presently Cures them. So that

Persons may try many Things, whereas all such Trouble wou'd be easily saved, and all ill Consequences prevented, by only WASHING the Part with this one easy Lotion.

Which is sealed up with Plain Directions in English & French, Price 7 s. 6 d. for Persons Privately to Cure themselves with, without taking any Thing at the Mouth.

But as some Persons will not be perswaded to use any Means for a Cure As yet, fancying to themselves that as the thing yet seems but little, that it will wear off of it self :

Which Delusion is the Ruin of many a One, who in the Beginning might have been presently cured without any thing taken at the Mouth, by this One Single Easy Remedy.

But neglecting it, have been afterwards put upon Salivations & other troublesome as well as pernicious Mercurial Methods of Cure, and perhaps never well Cured at last.

Therefore, We'll proceed on in our DIARY or Journal, to more Days : — Wherefore, On or about

Tenth Day.

The TENTH Day, the Urine looks pale, and whitish, and here appear as it were little Threads in it, & the Patient frequently provoked to make it, altho but by little Dribblings at a time, & perhaps but just tried to make it before.

Now also little watery Blisters, or Wheals appear on the Part, and when those Blisters break, & the Matter Owzing out of them dries, they appear like a Crusty Scurf on the Part.

Eleventh Day.

Now by this time, and about this ELEVENTH Day, the Venereal Venom having enraged the Part, the Symptoms begin to Crowd now Thick and Fast upon the Person:—Whereby

The Part is grown Sorer, and the Fore-skin becomes so inflamed and swelled, as to be purst up, and so closed over the Part BEFORE, that it cannot be moved Backwards.

But in those of the Jewish Nation who are Circumcised, and also in others whose Foreskin is naturally short, & strait, it is, then so swell'd BEHIND round the Neck of the Part, as to choak, girt, & bind it so hard round, that the Foreskin cannot be brought over Forward to cover it.

Twelfth Day.

About the TWELFTH Day, a Foul Matter will gather and Issue out from underneath the Fore-skin, which Fretting the Part where it lies, makes it Raw, Blisfery, and Sore.

And likewise, the Making of Water is grown very Smarting, and the Dripping of Foul Matter is also so increased, as to give the Distemper the Name of A GONORRHEA.

Thirteenth Day.

The THIRTEENTH Day, (or thereabouts) the Fore-skin being thus swelled and become thicker, the Frænum, or Bridle of it is become thereby Shorter:—And therefore

As soon as the Person is in their First Sleep, the thus shortened Bridle violently pulls down the Part, giving a very sharp Pain called a Cordée: A Word taken from the French, insinuating that the Part is pull'd down as if with a Cord, & causes the Orifice of the Urethra to appear larger than usual.

Fourteenth Day.

The Infection having now not only got farther up into the Part, but also has now fretted it, & made it sore; which makes That Uneasiness of Urine which hitherto has been only Heat and Smarting, now to become a perfect SCALDING:

And likewise That coming away of foul Matter which hitherto has been only a Dripping, to become now a perfect RUNNING, and which Running, as it increases in Quantity, it grows Yellower in Colour, and Thinner in Substance.

Fifteenth

Fifteenth Day.

The FIFTEENTH Day, the Infection now shifts it self and falls upon one or both *Testicles*, which grow very sore, painful, hard, swell'd, & very Uneasy thereby :

Upon which the *Running* is Check'd and Ceases, & cause gold Shiverings, sick Qualms on the Stomach, and as it were Faintings, Heats in the Palms of the Hands, Pains in the Limbs, a Weakness, Wearyness, & Heavyness about the Body, &c.

Sixteenth Day.

On or about the SIXTEENTH Day, there begins to appear a Swelling in the Groin tending to a Head, and to break and which is called *A Bubo*, and which if once broke will most certainly betray a Person's Condition — Therefore

To prevent so great an Evil, the very First thing the Patient ought to do, shou'd be to take out of Hand of the following *Specifick Remedy*, to free the Body of that *Vener* which feeds the Bubb, & so save its ever coming to a Head and breaking, by carrying such Swellings off in their Infancy, before they come to a Head, and discover the Person

The Symptoms of the Distemper having now thus made their Appearance, what *Uneasinesses* more happen, are not as yet any NEW Different Symptoms, but the Same continued only deeper and deeper rivetted, and the Distemper now will be At a stand for some time, till by either Neglect, or Mismanagement the Infection gets into the Blood, and then it constitutes the Third Degree of the Disease, of which hereafter

And thus is the Progress of the Distemper, proportionably in Women, as well as in Men, during its SECOND Degree.

But with this Difference, that ALL and EVERY ONE of these Symptoms do not happen to Every Person: But

Some of them happen to Some Persons, & Others to Others according to the Degree of the *Venom* that has been received

And again: As some Persons may have received a greater Share and Degree, others a less of the Infection, Therefore

ALL or ANY of these Symptoms may in Some Persons be some Days sooner, in Others Later than here described:

But generally the Progress of the Distemper is according to this DIARY or Journal of it: — So that

Whatever it differs from this Diary is owing to the Greater or Less Degree of Malignity in the Infection.

There being a Difference between Burning ones Fingers with the Snuff of a Candle, and a Red Hot Iron. Hence,

Some Persons may have an Injury hang on them for some Time without much Uneasiness, when others shall be severely Pepper'd from the Beginning.

Of the Cure of this Second Degree of the Disease:

THE Distemper being thro' Neglect in getting a Cure, or ill Management, thus arrived at its SECOND Degree, the *Patiens* is by all means now advised (besides using the *Lotion*) to Take some proper *Anti-Venereal Remedy*, whose Nature is, to find out, and unite it self with the *Venereal Venom*, and carry it Clear out of the Body:

To perform which, Nothing comes up to a certain *Anti-Venereal Medicine* known by the Name of the *Specifick Remedy*, And which Remedy being that Great Secret Dr. Chamberlen as so much esteem'd, The Account of it, is as follows.

This Remedy being (First) Published in *London* in the Year 1713, Numbers (especially Gentlemen) bought of it.

These Gentlemen finding themselves surprisngly Cured by it, presently recommended it to their Acquaintance under the same Unhappy Circumstances; and who experiencing the same happy Effect from it, Recommended it also to others.

This coming to the Ears of Dr Chamberlen, moved his Curiosity to Buy the Remedy: And which he did by sending his servant with A GUINEA for the whole Parcel sealed up containing this *Specifick Remedy*, together with the *Lotion*, & the following *Blood-cleansing Dose* that is for the THIRD Degree.

And having at that Time Some deplorable Venereal Patients almost Rotten, he was pleased to Try the Remedy upon them, and to his Surprize found them cured by it.

Which unexpected Success (on these his Venereal Patients) so surpris'd the Dr. that he writ to acquaint the Author with it.

The Author upon this waited on the Dr. who having examined well into the Remedy, was pleased to fall into the Opinion, that, What former Ages had been enquiring after, for the Cure of this Distemper; was happily Now Found out.

And therefore told the Author, that having experienced these Remedies and the *Elixir for Broken Constitutions*, &c. on his own Patients with such a surprisng Success as he had, he would recommend them to the World:

And which accordingly he did under his own Hand, in every ample Manner, a Copy of which is at large in the 4th Page of the *Venereal-Dispensatory*, hereafter mentioned.

This Remedy is also so great an Enemy to Mercury, that carries out of the Body, together with the Venereal Venom, the Relicks of Mercury as well as of any Venereal former Infection after a Former Cure; And therefore is the proper comfortable Refuge to relieve those unfortunate Persons who have been in bad Hands in former Cures.

And during the Use of this Remedy, the abovementioned Cures the Blisters, Swellings, Pimples, Frettings, and other Venereal Sorenesses, & Shancrous Breakings-out on the Part.

This Great *Specifick Remedy* may be had separate by itself, with it's Directions in *English* and *French* along with it, Price alone, Half a Guinea.—And thus,

By These Two Easy Remedies, viz. this *Specifick Remedy* and the *Lotion*, this SECOND Degree of the Distemper, before it is got into the *Blood*, is Easily and *Privately* Cured.

When these Remedies were First published in London in the Year 1713, Cures performed by them were used to be published, as Leave was given so to do. —But

Such Cures being since grown too numerous to be now in such a GIVEN-AWAY Book as this is: Therefore

Two separate Treatises are Published by themselves, entitled, *The Venereal, and Gleet Dispensatories*:

Which Books contain That belonging to these Distempers which every Patient ought to be informed of, and which cannot come Here into THIS little *Given-Away* Book

And that these *Dispensatories* may only pay for their own Paper and Printing (it being an Endless Expence to Give so much Volumes Away) they are only at 6 d. a Peece Price.

A D V E R T I S E M E N T.

THE famous Application, that in 24 Hours Cures all Sorts of AGUES, without any Thing taken at the Mouth. Most of the *Agues* of late Years have been Cured by it.

This Cure for AGUES is now Esteem'd by the Best Physicians, as the most Easy and Certain Remedy ever yet found out.

In Multitudes of Persons not having fail'd so much as Once.

Also the Famous Drawing Plaster that answers the End of a Blister, without Breaking the Skin. it drawing the Humors out thro' the Pores. To be laid on the Nape of the Neck, for Head-achs, Tooth-achs, &c. Price 2 s. 6 d. Each with Directions.

THE Delicate Water for the MOUTH. Teeth & Gums that by only Rinsing the Mouth with it, (being innocent like Fair Water, and Pleasant in the Mouth like a little Sack) Delicately Scours, Cleans and Frees the Mouth. Teeth and Gums of any VENEREAL Soreness and Foulness, and also of Any Soreness, Foulness or Rottenness from the SCURVY: It Heals any Blisters, or Soreness in the Mouth. Curiously Whitens and Fastens Bad and Foul Teeth, Sweetens the Mouth and Breath, and Prevents and Cures the Tooth-ach Scurvy, Rottenness and Decay of the Gums, making them grow firmly up round the Teeth. It pleasantly Searches, Cleans and Scours out all Foul Corners of the Mouth, and Alveoli or Sockets of the Gums that hold the Teeth, where No Tooth-powder can ever come at; which makes it the most Valuable MOUTH-WATER for all Persons whose Mouth, Teeth or Gums are Any ways Sore, afflicted with the Scurvy, or otherwise out of Order. Price 1 s. 6 d. a Bottle.

Of this Disease, in its THIRD Degree.

What is called the THIRD Degree of the *Venereal Distemper*, is when the *Infection* gets into the *Blood*, which in the *First & Second* Degrees it does not at all do.

So that when the *Blood* is once *infected*, the *Distemper* shews itself in a *different* Manner from what it did before, *viz.* By diverse Pains, Aches, Spots, Blotches and Breakings-out about the Body, with Soreness about the Mouth, Throat, Lungs, Hoarseness, restless uneasy Nights, Pains in the Shins, Loins, Back, Arms, about the Nose, and other Parts :

And the longer the *Infection* is let lie in the *Blood* without taking any thing, the worse and worse all these Symptoms grow.

Now, As the *Lotion* alone, without taking any thing at the Mouth, was fully sufficient for the Cure of this *Distemper*, whilst it was slight, recent, and only in its FIRST Degree, before the *Infection* had got far into the *Body* ;

And, As the foregoing *Specifick* Remedy, along with the *Operation*, were fully sufficient to Clear and Free the *Part* of the *Infection*, and Cure the Running, the Heat, Pain, and Smarting of *Urine*, with the *Cordee*, *Shancres*, and other Soreness on the *Part* whilst the *Distemper* was in it's SECOND Degree.

So, Now in this THIRD Degree, the *Infection* having got into the *Blood*, That *Infection* must be taken out of the *Blood*, before it can be carried out of the *Body*. And therefore,

If the Patient reasonably presumes that the *Infection* is not into his *Blood* ; the First thing shou'd be to take a certain particular *Blood-Cleansing* little Remedy, (Price by it self, with it's Directions, 3 s. 6 d.) Whose Property, is HERE in this Third Degree of the Disease, immediately to Free the *Blood* of, and to separate from out of it, whatever *Venereal* *Pocky Infection* has got into it, and mixt it self with it, and thereby has tainted and infected it. Where Note, That

This little *Blood-cleansing* Dose (which has nothing of *Mercury* in it) does not make the Cure a Day longer : But on the contrary, suppose a Person so very bad, and so even OXT with the *Distemper*, that nothing but a *Salivation* wou'd Cure 'em, this little Dose taken before the *Specifick* Remedy, makes the *Specifick* Remedy Cure them AS SOON AGAIN: By it's Striking at Once at the Root of the *Venereal* Poison, and taking the *Pocky Infection* immediately out of the *Blood*, (which otherwise Nothing but a *Salivation* wou'd do) for the *Specifick* Remedy to lay immediately Hold of it, and Carry it off. And thus this THIRD Degree of the Disease is so completely Cured, That it has been even astonishing, to see Persons such deplorable *Venereal* Objects, that they have been most Rotten, looking like Death, and scarce able to walk the Length of a Room, with Nodes and Pains in their

Joints, and even their Nose in Danger, Cured, and as well upon their Legs as ever, almost miraculously by this Method:

And their *Venercal Sores*, and Breakings-out Cured and taken clean away, with only Washing them with the *Lotion*.

And all this without any Necessity of Staying at Home, or without any Hindrance from Business, or Travelling, or other Affairs, but Persons may go about, and be in their Business, as if they ailed nothing: Which is a much more agreeable CURE than any *Salivation*, which of Necessity will Betray the Person, which this Cure does not at all do.

So that whenever a Person reasonably believes the *Infection* to be got into their *Blood*, these Remedies being then requisite for their CURE, which must be done by taking the *Infection* out of the *Blood*, that the *Specifick Remedy* may carry it off,

And the *Lotion* to Wash and Cure the Sores with.

Therefore these Remedies are Sealed up in one Parcel, with ample Directions in *English* and *French*, for the Use of Sea-Surgeons, Forreigners, Merchants and others Trading Abroad;

Being the only Things to perform Cures with at Sea, and in Forreign Climates, so Easy, and plain, and so ordered & contrived for *Secrecy*, *Commodiousness* and *Ease*,—That

Persons may Cure themselves PRIVATELY without advising with any one, and *No body* know that they have ailed any thing, or been any ways ill, or out of Order:

Price *A Guinea*. And is the whole compleat Cure, containing entirely what is Requisite, Necessary, & Wanting for it.

And is thus published, that the Parcel may be Privately bought & carried away in a Person's Pocket to any Place, There to Cure themselves with, without Suspicion of any One.

And therefore this *Guinea Parcel* contains what every one shou'd have in this Case to Cure themselves with, being the whole Compleat Cure, without Need of Advising with any one.

Or, Each of the Remedies may be had separate by themselves at the abovemention'd Prices, viz. The *Lotion* by it self 7 s. 6 d.

The *Specifick Remedy* by it self, Half a Guinea: Or, the *Blood cleansing Dose* by it self, Price 3 s. 6 d. With Directions to Every One. Or, all Sealed up in one Compleat Parcel together, for A Guinea: And in the Main, is the CHEAPEST CURE that unhappy Persons can have Recourse to.

Soon after Dr Chamberlen had Approved of these Remedies some Counterfeits appearing in the World, the Dr. sent his Servant with the following to be put in the *Publick Print*

Dr. Chamberlen's Approbation of the *Specifick Remedy*, &c.

THE *Specifick Remedy*, *Constitution Elixir*, &c. belonging to the Author of the *Anodyne Necklace*. I Recommend for the Secret Disease, &c. Others I disown as Counterfeits From my House in *Sussex Street*. P. Chamberlen. M.

Gleet Patient's Diary.

FOR the First FIVE or SIX Days after a Person is Cured of a *Veneral Injury*, there very often remains still a little Dripping: But where the Parts are much weakned, it continues TEN or TWELVE Days, and may be easily taken away; but if neglected, it continues Gleetng away, and brings on Weakness and Pains in the Loins, Back, Reins, Impotency, Barrenness, &c.

For the immediate Cure therefore of such Persons, a particular *Strengthening Chymical Liquor* is prepared, which without any thing taken at the Mouth, or any Uneasiness, Cures the most severe Gleet in Men, and Weaknesses in Women.

And whereas many have been so nauseated with Medicines for these Infirmities, that rather than take any more, they let them run on upon them to the Ruin of their Strength and Constitution, this is so Easy a Cure, that those who have used this Remedy, have been surpris'd to find themselves so soon and Easily Cured of a severe GLEET by it.

Price 7 s. 6 d. with Directions in *English & French*.—But Where a Gleet or other Draining Weakness has been of long Date, and so may prove more obstinate in its Cure.

Then, in such Cases, besides this *Strengthening Liquor*, A particular *Strengthening Elixir* (to be taken only with a Glass of Wine) is prepared, to be taken also, in order to perform the Cure of an obstinate Gleet as soon again as otherwise.

This *Elixir* being the Particular *Strengthenner* of those Parts where these *Infirmities* are seated, whether from *Self-Defilements*, or *Hard Labours*, *Overstrainings*, *Wrenches*, *Hurts*, *Miscarriages*, or *Secret Injuries* & their Cures, in either Sex.

As also for *Pains*, & *Weaknesses* in the *Back*, *Reins*, or *Loins*, to take away Stoppage of *Urine*, by carrying off *Slime*, *Gravel*, *Sand*, and other *Obstructions* in the *Vessels*, and *Passages*.

These Two Great Strengthners are put up in one Parcel with Directions in *English & French*. Price *A Guinea*, being a compleat Cure of a most obstinate GLEET:

Or may be had separate, with Directions to each.

And are the proper Things to Strengthen, Restore, Re-fruit and Replenish Nature again, where Persons have Weakned, and spoiled themselves, by the Unhappy Practice of *Self-Defilement*: Whether *Single Persons*, *Married*, or *Widdowers*.

On which Hainous Crime and of the Use, Abuse of, and Defiling the Marriage Bed, Two Treatises are Just Publish'd: One shewing it's Hainousness from the Law of Nature.

Price 1 s. 6 d.—The other from Revelation. Price 1 s.

See more of all this, in the Gleet-Dispensatory.

Of

OF A BROKEN Constitution.

BESIDES the abovementioned *Three Stages* of the *Secret Disease*, There is yet Another much more Unhappy State, in which a Great Part of Mankind find themselves:—Which is,

A *Broken, Spoiled, and Ruined Constitution* & Habit of Body, by Fast Living, *Self-Defilements*, Hard Drinking, Former Cures, Salivations, and Mercury, which afterwards ought to have been (but was not) well carried off, and therefore lies Lurking in the very Bones of the Poor Ruined Patient.

Such Persons complain of Pains about their Bodies, Numbness in their Limbs, Weakness in their Backs, Reins. & Loins, Dizziness in the Head, Lowness of their Spirits, Restless Nights &c.

Their Urine is generally Foul, Thick & Offensive, with variety of, as it were, Strings, Threads, Films, & Corruption in it; Several little imperfect sorts of Breakings-out, with Spots about the Body like the Scurvy, or Itch; Pains in their Bones like a Rheumatism, &c.

Oftentimes also attended with a Heat, Sharpness, and Uneasiness in making Water, with too frequent Provocations to it.

Now to Remedy these Evils, the usual Method of Cure, is Either by a Salivation, Or Diet-Drinks, Or Tiresome Physick.

And if No Other Means would do, these Courses of Physick must be undergone. But Another much Easier Way is now found out, by One Single easy Medicine, a particular Diuretick Elixir instituted to supply in a more eminent Degree the stead of Diet-Drinks, and tedious Courses of Physick.

By its Carrying off by foul Urine the Relicks of Mercury, & Venereal Infections that cause those Disorders abovementioned.

How this is done, may be explicated by a Familiar Example.

The diffused Rays of the Sun coming in at an open Window are some time before they will warm ones Hand:

But if you contract the dispersed Beams into a Point thro' a burning-Glass, your Hand will soon be hot.—Just so,

Diet-Drinks in themselves are so very slow and tedious in performing a Cure, that unless Persons perfectly wash themselves with them, they prove of little or no Effect.

Whereas the Virtues of Anti-Venereal Diet-Drinks being brought in an Elixir into a small Compass, and as it were Contracted and Concentr'd into a Point, it is instituted to rectify (much more Easily than Diet-Drinks are wont to do) those many Disorders in the Constitution, which by Salivations, Ill Cures, Fast Living, Hard Drinking, or Other ways it may have contracted.

How the Virtues of Diet-Drinks, and Courses of Physick may be Contracted into some ONE Easy Medicine, appears thus

Chymistry being an Art which Extracts the very Essence and Life of things, separates by consequence their Purities from their useleis Dregs, in order to the Preparation of Medicines more Grateful to the Palate by Abbridging their Dose. & more Healthful to the Body, by throwing away their Dross.

This

This will appear clear in an Example of *Jalap Root*, which consists of 2 Parts, to wit: *A Resinous Part* wherein its *Chiefest Virtue* consists, and an *Earthy gross part*, which is of little use, except to clog and load the *Stomach* to little Purpose.

Now the *Virtue* of the *Root* consisting in it's *Resin*, 'tis unnecessary that a Person should Load, Nauseate & Clog their *Stomach* with 30 or 40 Grains of this *Root* in Substance, for the sake of about 4 or 5 Grains of its *Resin* contained in those 30 or 40 Grains of the *Root*; & which 4 or 5 Grains of its *Resin*, will many times have a better effect, than 30 or 40 of the *Root*.

'Tis therefore by the *ART* of *Chymistry* that this *Resinous Part* is Extracted from the other useless *Gross Part* which the *Chymists* throw away, In order to abridge and lessen the *Dose*, by giving to Persons only 4 or 5 Grains, instead of 30 or 40.

And 'tis This Method that is here used in the Preparation of this *Great Constitution Elixir*, in order that only a few Drops of it may be taken with a *Glass of Wine, Ale, Beer, &c.* instead of *Nauseous Draughts of Diet-Drinks, or Courses of Physick*.

From which fully appears the great Convenience of such Cut and Abridgment of long tiresome Courses of *Physick*.

For 'tis not the Quantities of nauseous *Physick* that does the Work in Venereal Cures, (too much *Physick* breaking the *Constitution* many times more than the Disease.) — But

'Tis happily hitting upon the *Right things* for the *Distemper*.

So that 'tis a *General Rule*, that The Best Cures are commonly performed by the least Quantities of *Physick*, if the *RIGHT* proper Things for the *Distemper* be but luckily HIT upon.

This *Great Elixir* is sealed up with *Directions* in *English & French*. Price *A Guinea*. And is the Particular thing to supply the Stead of a *Salivation, or Diet-Drinks*.

AN Y Seafaring or other Person Trading Abroad, that will have of any of the things in this Book, to Dispose of again (as several Traders do, who make a very large Return by them in *Ireland, Scotland, France, Spain, &c.* with the *Indies*) They shall have a Large Allowance.

ALL Soreness of the EYES, Blood-shot, Defluxions of Humors, Specks, Films, tho of long standing, Cured by a particular *Ophthalmick Liquor* without any smart to the Eyes. It removes all Dimness, clearing the Sight, and making Brisk, where the Eye is Dim, Weak, or Naturally of too full a Water. Many so very Dim-sighted for some Years, scarce able to distinguish any thing, having been so cured, as to read the smallest Print, and do the finest Work only without Spectacles: And lest their Spectacles off, after use of the famous *Eye Waters* had been used in Vain, in such that it may be almost accounted a Miracle of a Medicine. Price 1s. 6d. a Bottle, with Directions.

The GOUT Diary.

THE FIRST Day that this Disease invades the Sick, 'tis usually (according to Dr. Sydenham's Observations) with a Pain in the great Toe, but sometimes in the Heel, the Ancles, or the Legs.

The SECOND Day there follows a *Chilliness* with a *Fever*.

The THIRD Day the *Pain* increases and the *Chilliness* goes off.

On the FOURTH Day the Part is swell'd and red, and the Pain is as if Dogs were gnawing it, & so sharp, that the Weight of the Bed-cloths can scarce be born.—On or about

The FIFTH Day the other Foot is also affected, And thus the Pain continues more or less about FOURTEEN Days.

The FIFTEENTH Day, the *Urine* is of a higher Colour with a red Settling; the Person is also *Costive*, & the *Appetite* dejected.

About the SIXTEENTH Day, the Pain being abated, the Joint swells, and grows Sore, and Tingles, as if Needles were piercing it: And thus the Fit continues longer or shorter, as the Gouty Humor more or less abounds in the Person.

And in the going off of the Fit, the Part grows very weak, Nature having spent it self in struggling with the Fit, and is affected with a particular Itching, and a kind of a Scurf on it. And in many Persons, not only the Feet, but also the Hands, Wrists, Elbows, Knees, and other Parts suffer.

Thus is the usual Progress of the Disease, only with this Difference, that it does not seize ALL Persons alike, But

In *Some* it begins in one Part, in *Others* in another. And

Altho this Distemper is in many Persons very obstinate,

Yet Numbers have been Cured by a particular *Specifick* GOUT-Tincture to be taken only with a Glass of Wine, by which *Ease* is almost instantly obtained in most racking Pains, the Fit taken off, and Health surprisngly placed in its stead.

And this without any Disturbance, or Uneasiness to Nature.

This Tincture making it's Way immediately to the Gouty Joint, and frees it from the Gouty Humor, & carries it off.

It Cures also the Rheumatism, Sciatica, and Pleuresy.

Insomuch, that those who were Cripples before, have by it throw away their Crutches, and walked the Streets, without even a Cane. to their own & others Amazement.

Surprising Instances of which have been Esq; Needham of Hilston in Monmouth-shire, cured by this Tincture, having had the Gout about 30 Years. Mr. Dewy at Greenwich. 9 Years.

Mr. Smither in Barbican. 12 Years. Mr. Wiggins in Oster Lane 9 Years. Mr. Davis in Black Fryars, with a knotted Gout 5 Years.

Mrs. Malkin in Newgate Market, with Chalk Stones 14 Years.

More of all which enquire at the Necklace at Temple Bar.

This Gout Tincture is Sealed up, with Directions in French and English along with it, Price A Guinea.

Of the Anodyne GOUT-STONE.

SINCE Experience, and the *Positive Assertion* of the BEST Physicians assure us, that there are some *Certain Things* in Nature of so *Sympathetick & Homogene* a Quality with Human Body, as to have an evident Influence, and Effect upon it, by their being only *Worn*, or *Carried About* a Person: The great Mr. Boyle tells us, that the Use of such Remedies, is not only the Way of Shortning many obstinate Cures, but renders them much more easy, Expeditious, and SAFE.

And that there are some such *Certain Things* in Nature, which being only *Carried about* a Person, will produce an evident Effect on the Person that only WEARS them, the Visible, and Indisputable Matter of Fact of the thing, in a great many Instances, undeniably shew. For Example:

Carry a few *Spanish Flies* in your Pocket, and they will cause violent Pain in the Bladder, with a *Bloody Urine*.—Again: Let a Person Carry some *Quicksilver* only in their Pocket, And they will soon find their Gums, Jaws, Throat, Tonsils, and Jugular Glands to swell, & grow sore, and their Teeth loosened, with a *Spitting* like a *Salivation*.—Also

The Carrying of *Arsnick* in the Pocket, will affect the Body. And the Wearing of *Blood-Stones*, and *Cramp-Rings*, will have a sensible Effect upon the Person, as every one knows, without ever taking any thing in at the Mouth.

An eminent Instance of which, we have from the Experience of the great Mr. Boyle on his own Person, and in his own Words, in his Treatise Of *Specifick Remedies*, Page 119:

Speaking thus of himself: *I having been very much subject to Cramps, a Physician told me that he had some certain Rings, By the only Wearing of which he had Cured many of the Cramp, and withal presented me with one of them: And when I had the Cramp, I found myself so soon eased by putting on the Ring, that I was surprized at it, & therefore I had the Ring laid every Night by my Bed side, to have it in Readiness, when Occasion shou'd require.*

And that which I thought somewhat strange was, that Several times when the Cramp seized my Feet, or my Toes, the Pain was quickly removed, tho I applied the Ring but to my Finger.

Again, (says Mr. Boyle) *I lived in the House with a Person that was subject to the Palsy, and violent Cramps, and who was Cured by WEARING only a Bone of a certain Sen-Animal.*

Mr. Boyle goes on: *An eminent Physician telling me of One that had a Violent Diabetes, I told him of a certain Remedy, that was to be Worn only about the Neck in a Silk Bag, For which some time after the Physician gave me great thanks, telling me that he was surprized at the Effect of it, in Curing the Person.* And a little after,

He tells us of Persons cured of violent Pains; of the *Bloody-Flux*; of the *Piles*; of violent Fits; and of *Sore Eyes*, by only Carrying Remedies about them.

C. Mr

Mr. Boyle again tells us of another Cured of violent Palpitations of the Heart by only *Weaning* about their Neck some certain little Medicinal Stones which came from the Indies.

All this Mr. Boyle positively asserts from his own Knowledge. And indeed, whoever does but read Mr. Boyle's Works, will find (Solemnly attested) Numbers of Cures of several obstinate Distempers, by Persons only *Carrying Remedies about them*.

That memorable Example of Galen, (says the same Mr. Boyle) will NEVER be forgot, who expressly tells us, that

A Peony Root Hung about an Epileptick Boy's Neck, kept him from the Falling Sickness, as long as he only WORE it. *Radicem Collo Suspendimus, & Sanus factus est Puer, Nec postea Convulsus est*, are Galen's own Words, Lib. 9. De Simpl. Med.

Also *Morandus*, an Eminent Spanish Physician tells us of Persons Cured of the Piles, by their only Carrying a certain Medicinal Stone about them: His express Words are these.

Vidimus sanguinis Fluxu affictos remedium sensisse, hunc LAPIDEM solummodo secum GESTANDO Simp. Med. Hist. c. 36.

And speaking of the wonderful Effect of another Medicinal STONE for Fits, says, that If Persons only Carry it about them, they will be Cured. *Si solummodo GESTENT, subito levantur, & nunquam simili morbo corripiuntur*, are his express Words.

Van Helmont and *Paracelsus* of a Ring made of a certain Metal and WORN only on the Finger, thus speak.

Cum bona veritatis Conscientia attestari possumus, hujus generis Annulos quos qui INDUIT, Hunc nec spasmus Convulsit, Nec Paralysis Corripuit, nec Dolor ullus torfit, nec Apoplexia invasit:

Et si Epileptici Digitus hujusmodi Annulo Annuletur etiam in Paroxysmo savissimo, Eger a lapsu illico resurrexit. Archidox: l. 1.

Dr. Quincy in his Dispensatory, p. 179. tells us of a Person who by Carrying only in his Pocket a Parcel of Saffron to Market, was so affected by it, as to make a bloody Urine.

Now from all this, it indisputably appears, that there are Some Certain things in Nature, which being only Carried about a Person, and without ever entring in at the Mouth will have an undeniable Effect upon a Human Body.

Again: Nothing is so common among Physicians, as to prescribe to Women afflicted with FITS, the Carrying of Castoreum and *Assa Fetida* about them.—And The Great Dr. Willis, De Morbis Convulsivis, p. 126, glories that he often Cured Fits by such Remedies only CARRIED ABOUT PERSONS.

Forestus (an eminent Italian Physician) tells us of Numbness cured of Head-aches, by only carrying the Herb *Vervain* about them. l. 9. Obs. Med.—And that eminent Physician *Bartholinus*, has writ a whole Treatise about Persons cured of the Stone and Gravel, by only Carrying the *LAPIDEM Nephriticum* about them.

Another

Another Proof of the Efficacy of the WEARING of a Remedy, Naturally occurs from the Success of the famous Anodyne Necklace, in those Thousands of Families who have experienced their Children to have received Benefit by it.

And therefore, it will not be improper here to take Notice, that the Reputation of Children's WEARING this Necklace for their Teeth, is now so great in the World—That

On the 20th of Jan. last, One of these Necklaces was bought at Temple Bar by a Person of the First Quality by express Order of the King of Denmark, to be sent over to Copenhagen, for the Young Princess R. of Denmark to Wear, as Numbers of the Nobility's Children of Europe Abroad, have of late Years done.

This celebrated Necklace having been sent for from Vienna, Stockholm, Madrid, Lisbon, Paris, and other Courts of Europe.

And on the 25th of Jan. last, One of these Necklaces was sent for by her R. Highness the Pr. of Wales for the Youngest Princess to Wear, as Pr. William, & all the Royal Children here have hitherto always done before, & not ONE of them has ever Bred or Cut their TEETH ill, but with great Ease.

And lately an Account came from Paris, of a Lady who had buried six Children of their Teeth before she heard of this Necklace; but upon having it she has now Three fine Children alive, with each of them One of these Necklaces on.

So that Nothing could ever PAVE THE WAY for the Reception of this Late Great Discovery of this Sympathetick Anodyne Gout Stone in the World, like the Undeniable Success now for so many Years of this Sympathetick Anodyne Necklace.

The same Argument holding Equally for the Wearing of Remedy for the Gout, as for the Wearing of a Necklace for Children's Teeth; Both acting on the very same Principles.

And indeed Numbers of Persons who have had this Wearable Anodyne Gout Remedy, have declared, that they would not part with the Stone again (in a Supposition that never another was to be had) for over & over its Weight in Gold.

It was the saying of a great Physician, that if it was not for OPIUM, he would never Practice in the Gout.—And

Dr. Cheyne in his late Essay on the Gout, Sixth Edition, pag. 11. calls *Ethiops Mineral* (which is a high Preparation of MERCURY) the most certain Medicine for the Gout of the whole Dispensatory, and says that He never used it without Success, and therefore cannot pass it over without pressing its Use.

Now Opium and Mercury, as Great things as they are, require great Caution. And therefore to have the Good Effects of these great Champion Medicines in the Gout, without their Dangers, This Gout-Stone being a peculiar Petrified Mercurial Opiate, Out of which (when but once Warm in the Pocket) an Atmosphere of Mercurial and Opiate Effluvia Swarm, as the Effluvia do from a Load-Stone.—By Consequence, C 2 This

This *Pain Easing or Anodyne Sympathetick Gout-Stone*, (the word ANODYNE signifying any thing that Eases and takes away Pain) is, by these it's Effluvia acting on the Gouty Joint *Outwardly*, to supply taking of Opium, or Mercury *Inwardly*.

So that the Effluvia swarming out of this petrified Mineral Substance, entering the *Pores* of the Gouty-Joint *Outwardly*.

And *There* dissolving the Thick Coagulated Gouty humor.

And *Then* the abovementioned GOUT-Tincture used all with it, to make it's way at the same Time to the Gouty Joint *Inwardly*, and there to Carry off by Urine, and an Easy Stool or two the Gouty Humor, as the Effluvia of the Stone prepares it thus for Expulsion, is a Cure for the GOUT.

Not only infinitely before taking of Mercury or Opium *Inwardly*, but is the most Easy and SAFE One, that CAN be.

And will keep the Gout out of the Stomach. In a Word.

This Stone is a Petrified Gout Mineral; Out of which (as fully manifest from it's Odorous Smell as soon as it is brought Once Warm in the Pocket) Flow Mercurial and Opiate Effluvia so active, and of so Sympathizing a Nature with the Gout, that

Swarming about the Person, they soon enter the swelled and open'd painful Pores of the Gouty-Joints. Where they as NATURALLY subdue the Gouty Humor, & give Ease.

As the Wearing a Blood-Stone, a Cramp-Ring, Spanish Fly, a Quicksilver Girdle, Sympathetick Powder, &c. NATURALLY affect the Persons who only Carry these things about them.

Which Effect of this Petrified Sympathetick Mineral Gout-Stone made a Great Physician say of this Mineral, That It makes the Gouty Symptoms vanish, as if by Enchantment. And that if a Philosophick Reason of the Thing was but impartially considered, & enquired into, there is much More in it, than many are aware of.

Just as the Load-Stone at first seemed incredible, 'till its Effect put it beyond all Dispute.—So this Gout Stone gives Ease, makes likewise the Possibility of it indisputable:

All this is entirely conformable to the *Modus operandi* explained by Galen about his Celebrated Peony Root for the Falling Sicknes, when he says, that it was the Effluvia flowing from the Root thus Worn, that cured the Persons. *Partes quas plantae Radice Defluentes affectos ita Curare*, are Galen's own Words.

In the Supplement to the New London Dispensatory, pag. 22 a Dried Toad is prescribed to be WORN about a Person.—And

Of which the Author says....With this Remedy only Carry about a Person I have cured several of a constant Diabetes, & of the Persons brought it into the World with them. From all which

We'll conclude with the Great Dr. Mylius, an Eminant German Physician, speaking of a Person's WEARING of a Remedy *Antid. l. i. c. 6: Mirum & incredibile videri non debet a Medicina juvari posse hominem, etsi intro illam in Corpus assumat, sed tantum secum GESTET.*

Some Instances of the Effect of this Gout-Stone.

AS Cures on Persons of Note can be least Distrusted :

The Right Honourable the Lord Craven, being confined to his Bed with the GOUT : On the 8 of Febr. 1723, sent for this Stone, and only took it into Bed with him :

It was no sooner Warm in the Bed with him, but his Pains sensibly diminished, and in 24 Hours he was entirely free from the Gout, went Abroad, and remains so, by only the Use of this Stone, as he has been pleased freely to own.

A Lady afflicted with the Gout many Years, on Thursday the 11th of Oct. put into her Pocket this Gout-Stone.

As soon as the Stone was warm in the Lady's Pocket (which was in about an Hour) it began to exert its Virtues :

Whereupon the Lady sensibly perceived her Pains to dwindle away, and in a little time was surprisingly easy and well.

Mrs. Margate in Dartmouth-Street Westminster, so Lame with the Gout, that she could not lift her Hand to her Head; nor Use one Foot, She put this Gout-Stone into her Bosom.

The very First Day she had it, the Pain gradually ceased, the Swellings sensibly abated, and she mended so visibly every Day, that in a few days she was perfectly well, and remains so, with the Use of all her Limbs as well as ever. And Numbers of Persons have been to see her, to know the Truth of it.

A Gentleman in Southwark, confined 16 Weeks with the Gout, was Cured by Carrying this Stone about him.

A Gentleman in Smithfield a Cripple, having had this Stone in his Pocket a few Days, went abroad without his Crutches.

A certain Officer in the Army is pleased to say that Wearing a Remedy for the Gout, is the only Thing that eases HIM.

Any Person shall be fully satisfied of these and other Cures (which are too long to insert here,) by Person's only Carrying this Sympathetick Anodyne Gout-Stone about them.

Which is at Two Guineas Price, with a Stitch'd Treatise in English and French concerning it, along with it.

But as the above-mentioned GOUT Tincture so concurs with the Operation of this Stone, that these Two Remedies act Potently in Conjunction with each other, as two Horses draw a Load which only one of them cou'd not get along.

Being *Vis Unita* which is always Fortier, as Two Strings are to a Bow, according to that Maxim in Physick, that

Quæ non prosunt Singula, SIMUL juvent.... Therefore

The Stone is sealed up along with the Tincture, Or may be had separate by it self... And is a Cure for the GOUT, Founded on the same Natural Principles, as is the Wearing of a Blood-Stone, a Cramp-Ring, a Teeth-Cutting Necklace, a Peony-Root for the Falling-Sickness, Castor and *Assa Fetida* against Fits, a Quicksilver-Girdle, or any other WEARABLE Remedy for any Distemper whatsoever.

Of

Of the Celebrated *Anodyne* NECKLACE.

*Which Dr. Chamberlen has Recommended for
Children to Wear to Ease the Cutting of their Teeth.*

IT appearing by the *Bills of Mortality*, That in and about
London, above 12000 Children Yearly Die of their

TEETH, and *Fits, Fevers, Convulsions, &c.* caused thereby;
All Mothers and Nurses ought to have this Admirable

Sympathetick NECKLACE for their Children to WEAR.
His Royal Highness Prince *William*, and the rest of the
Royal Children here in *England*, have always Wore one of

them; of which see an Account above, in Page 19. — And
A vast many of These Incomparable Necklaces have been
of late Years used (upon Dr. Chamberlen's Recommendation)

in Numbers of Families, whose Children, almost at Death's
Door with their Teeth, recovered after this Necklace was wore.
And the Parents of a great many of these Children, have
freely given Leave to have their Names Publickly Adversised

for a General GOOD, and which accordingly has frequently
been done in the Publick Prints, as any Person by Consulting
the *News-Papers* of late Years may be fully satisfied of.

Whenever therefore you perceive that the Child is Breeding
its Teeth, & its Gums to be Swell'd, Sore, or Inflam'd therewith

First put on the Necklace to be Worn as other Necklaces are.

Then let the Nurse or Mother put upon the end of their
Finger a Drop or two of the Liquid Coral that is put up
along with it, and rub it gently to & fro over the Gums, to

make them give way for the Easy coming out of the Teeth
By these means, numbers of Children tho under great
Severity of Pain, have soon Cut their Teeth, with Ease & Safety.

And have been stronger, and healthyer at 8 or 9 Months.

Old, than others at 12 or 18 Months, by having had [*thro God
Almighty's Blessing and Assistance*] *Fits, Chin-Coughs, Ruptures,
Fevers, Convulsions* & other such *Altments* incident to Children
kept off and prevented, to the unspeakable Joy of the Parents.

THIS NECKLACE, with the Liquid Coral are Seal'd
up with the above Seal of this Necklace, with
Directions in *English & French*. Price together 5 s.

This Necklace is a proper Thing for a New Years Gift
or a Present at any Time, for God-Fathers, God-Mothers
Relations or Friends, to give to Children and Others, &c.

THE Fine Pedoral LOZENGES, for that Uneasiness
at Stomach called the HEART-BURN, Coughs,
Pains, Gnawings, and Sowness at Stomach, & Head
in the Throat after Drinking, &c. Price 6 d. a Paper.

For all Persons who use TOBACCO.

A Fine Pleasant prepared TOBACCO for the Head, Stomach, & Sore, Weak or Dim Eyes, by which Persons may never come to use Spectacles, and if have Used them, come to cleave them off. 'Tis also for Deafness, Tooth-achs, Vapours, Coughs, Wheezing and Shortness of Breath, Rheumatism, Dropsy and Gout. It Smoaks Fine, Soft, Smooth, Pleasant and Cool in the Mouth, and to be Smoak'd at any time like common Tobacco. 'Tis in large Papers at 1 s. Each. Or Four together for 6 d. which will last a long while. No Tobacco comes near it for Pleasantness and coolness along with any Liqueur: So that those who only try a Pipe of it, will Smoak no other.

Of this Tobacco the following Letter was sent.

Being lately in Town, I was for 10 or 12 Days Lame with the GOUT, but being obliged to go Abroad, I happened in Cheap-side to be with a Gentleman that Smoked an extraordinary pleasant TOBACCO, which he much Recommended to me for the Gout and SORE EYES, with which I was then grievously afflicted. I Bought of it at the Anodyne Necklace without Temple-Bar, and by only Smoaking of it, am as well as ever in my Life: Which I will testifie to any that will enquire for me at the Dragon in Shopsgate-street, where I keep a Warehouse with Norwich Stuffs, trading between Norwich & London. Ja. Scottow.

The Famous PURGING SUGAR-PLUMS.

ONE of these PLUMS, (which will cost only a Penny, & has nothing of Mercury in it) is enough to Purge Worms & Foul Humors from a Child of 3, 4 or 5 Years old. And about a Quarter, or Half a Plum for younger Children. Give Two to a Child of 6, 7, 8, or 9 Years old. Three are enough for one of 10, 11, or 12 Years, and Upwards. And a Man or Woman may eat 4, or 5, to Purge 'em. And as for any Sort of AGUE they Cure it in 24 Hours. And for Worms, 2 of these Plums brought away alive from Mr. Dixon's Child in St. Martin's Lane, near a quarter of a Pint. Price 12 d. a Dozen, Or 9 s. a Gross. (with a Neat printed Letter to Hang out,) to all Shopkeepers who Sell them again. Numbers of Shops now selling these Plums to great Advantage.

COUNTERFEIT Purging Sugar Plums of Mercury and Dangerous things being Sold about the R. Exchange. Whoever sells these TRUE Purging Sugar Plums, and is not Furnished from the Anodyne Necklace at Temple-Bar: Or, By R. Brunsford, (the Author's Servant) against Sutton-Street and by Soho-Square; may depend that their Plums are false.

For

For the ITCH Or any ITCHY Humor

Or Itchy Breakings-out, or any Scabs,
Scurfs, Pustules, Pimples, Heals, Scurvy Spots, Redness, &c.

THE BEST CURE in the World, By a particu-
lar Chymical Water, that presently Cures the ITCH, without
taking any thing at the Mouth, or Trouble in it's Use.

Being a Clean Neat CURE, Short, Safe, and Expeditious
Far beyond any Dangerous Quicksilver Girdle, or Brim-
stone & Milk, or Oil of Bays & Quicksilver, or Brimstone
and Hogs Lard, or any troublesome Daubing Ointments.

THE ITCH is not mention'd on the
Bottle, that You may see it any where, and use
it without any ones knowing what it is for, and by only
Washing your ITCHY or any other Breakings out on your
Hands, or about the Body, with a Rag Wet in it, (it being
Clear like fair Water, and has nothing at all of Mercury or
any offensive thing in it) it compleatly Cures, Kills and takes
away this foul troublesome Companion of a Distemper.

And quite Clears the SKIN of Scabs, Scurfs, Pimples, Red-
ness, Heals, Scurvy Spots &c. any where about the Body.
It has no Smell, nor fouls Linnen more than fair Water.
For any Sore, or Green Wound, wash it with this Water
to keep it from proud Flesh, Festering, Gangreen, and to Cure it.
Price One Shilling Sixpence the Bottle, with Directions.

Just Published, A New Edition of

AN Account of the Place Where the NIGHTINGAL
the Swallow, the Martin, the Swift, the Redstart, the
Stork, the Cuckow, and Other Summer Birds of Passage
(which appear so all on a sudden in Spring, that a Nightingale
will be in almost Every Hedge, tho' but a little before now
One of them was to have been seen or heard) GO and abide
during OUR Winter, when they are absent from us, and
one could ever yet tell where they are, or what becomes of 'em.

Also, An Account Where the WOODCOCK, the Fieldfare,
the Red-wing, and other Winter Fowls of Passage Go in the
Spring to Breed and Reside all OUR Summer, till Winter.

When they so suddenly appear again, that in One Night
Time almost Every Coppice shall have a WOODCOCK in it,
tho' but the Day before not a Bird of them was to be seen.

THIS Curious Book is Given Gratis at the Anodyne Neck
at Temple-Bar. And To those who WRITE to R. Br
shaw (the Author's Servant) as above in the 2d Page. FIN
